Re: Movement of Migration of workers being telecast on news channels

As you are all aware post the country wide lockdown due to Corona Virus (COVIND 19), a lot of migrant workers across the country are trying to go back to the safety of their homes in villages/ towns. This is a mass exodus of migrant workers. The Central /State Governments are taking every possible precautionary measure to take care of the migrant workers and to also prevent the spread of Corona Virus.

The visuals of migrant workers attempting to go back to their homes in villages/ towns, and the governments making transport arrangements for the migrant workers, will prompt migrant workers to gather on the borders. To discourage this members channels are requested to be cautious while telecasting the visuals of migrant workers.

Regards,

Annie Joseph
Secretary General
