PRESS RELEASE

FOR IMMEDIATE RELEASE

The News Broadcasters Association (NBA) expresses its concern over the recent raids conducted by the Central Bureau of Investigation (CBI) on the residences of the promoters and office of NDTV, who is a long standing member of the NBA.

While the NBA maintains that no individual or institution is above the law, it condemns any attempt to muzzle the media and causing any interference in the free functioning of news operations. Such a move also undermines the basic tenets of free speech enshrined in the Constitution of India.

NBA hopes that CBI will not venture into concerted harassment of NDTV/its promoters, and must ensure fair and just investigation by adhering to equity, justice and good conscience.
